TEACHING SEMINAR PLAN

Name ________________________________  Seminar Date __________________

The purpose of this seminar is for candidates to demonstrate their proficiency in leading a class in a subject of their own choosing. The audience, which is likely to include faculty and staff as well as students, will take on the role of students for this class. The “class” portion of the seminar should last no longer than 30 minutes, to allow time for additional questions and discussion afterward. Please provide the answers to the following questions at least 3 days before the date of the seminar.

What is the general topic of the class you will be leading? Why did you select this topic?

What is the target audience for this class (e.g. introductory-level nonmajors, senior-level majors)?

What specific learning objectives do you have for this class?

What specific learning activities do you plan to use to achieve these objectives?

How, specifically, will you assess how well these objectives have been met?
