

ncfdd Faculty Success Program

Department Chair Endorsement

The Faculty Success Program is ncfdd's highly rated and successful twelve-week, online mentoring program. The program is offered in the fall, spring, and summer. The program is designed to teach faculty the skills they need to increase both their research and writing productivity while maintaining a healthy work-life balance. See more detailed information in the [program guide](#). ncfdd recently opened participation to term faculty who are currently appointed continuously with at least one-year remaining on their contracts and have research and writing expectations described in their Position Responsibility Statement (PRS).

In a continued program for Fall 2025, ncfdd charges early registration costs of \$4495 for this program. The Provost's Office will partially support the participation of faculty (all appointments, all ranks) in the Faculty Success Program by contributing \$2500. Faculty sponsored by the Provost's Office are expected to complete all components of the Faculty Success program. Participants, departments/schools, or colleges will be expected to cover the remaining \$1995 program fees through other sources (e.g., matching funds, professional development funds, grant funds, or other sources).
